Always Dependable

## FIELD SEEDS

Under date of February 8th, 1930, The United States Department of Agriculture issued a Bulletin containing the following statement:

*"The conditions which favored the Clover Seed Crop this year in many States, also favored the production of Weed Seeds, so the farmers should be sure of the quality of the seeds they are using, particularly as to purity and freedom from weed seeds. Above all else the farmers should use seed that will produce a Clover Crop not a Weed Crop. Clover Seed that is not clean enough for the commercial trade certainly should not be sold to neighbors for re-seeding."*

Weeds cost the farmers millions annually. You can help them by a careful selection of seed stocks.

Freedom Quality represents the best in the art of selection and field seed recleaning. Every Bag is especially processed to eliminate buckhorn and other noxious weeds. This Brand is a symbol of Adaptability—Strong Germination—Low Weed Content and High Purity.

Very truly yours,  
THE DOUGHTEN SEED COMPANY.

*B. A. Patten.*  
President.
